BLACK/BLACK, BLACK/FLESH, TAN/FLESH

THE ELASTOSPLIT JAZZ WAS INSPIRED BY THE ELASTOSPLIT AND SLIPSTREAM. THIS CREATIVE DESIGN REMOVES UNNECESSARY MATERIAL IN THE MID SECTION OF THE SHOE, TO IMPROVE THE LOOK OF THE ARCH AND REDUCE BUNCHING UNDERFOOT.

TECHNICAL DETAILS

THE HEEL OF THE FOOT IS HELD FIRMLY IN PLACE BY STRONG ELASTIC STRIPS WHICH ARE ATTACHED DEEP INSIDE THE HEEL STOPPING THE FOOT FROM SLIPPING OUT OF THE SHOE. THE ELASTIC STRIPS SKIRT EACH SIDE OF THE FOOT PULLING FORWARD THE TOES. THEY ARE ATTACHED TO THE INSTEP AND BRIDGE OF THE FOOT; THEY CONTINUE THROUGH TO THE VAMP AND ARE AGAIN ATTACHED FIRMLY TO THE INSIDE OF THE TOE SECTION OF THE SHOE. THE SPRINGING MOTION OF THE ELASTIC ACTS LIKE A VACUUM DEVICE PREVENTING THE SHOE FROM SLIPPING OFF BUT ALSO ALLOWS THE DANCER TO MOVE FREELY.

FEATURES

- DESIGN OF ELASTIC FRAMEWORK ENHANCES ARCH AND LINE OF POINTE.
- COMFORTABLE LINING THAT WICKS MOISTURE AWAY.
- LOWER HEEL FOR STABILITY WITH FOOT TO FLOOR CONTACT TO PREVENT 'ROCKING'.
- SPECIALLY REDESIGNED UPPER FOR MAXIMUM COMFORT OF THE METATARSALS.
- AIR PUNCHED INSOLE.
- LACE FREE.
